

New York Stock Market

New York, March 7.—Engagement of about \$6,000,000 gold for export expressed in concrete terms today the bearing of strained monetary conditions abroad upon this market. The first engagement of gold for Germany since the spring of 1908 was announced. The bulk of the gold, however, goes to France and Argentina. Berlin was again bidding 6 1/2 per cent in this market today for sixty and ninety-day loans in advance of the April settlement. Indications were that the exportation of gold, which has amounted to nearly \$35,000,000 this year, would be carried further. The outlook for easy money was not favorable, although the call money rate here is still the lowest of any of the world's greatest financial centers. Last week's bank statement showed that the excess reserve had been reduced to a slender margin, and forecasts of to-morrow's report, based on known movements of currency indicated a further loss of \$3,000,000 or \$1,000,000.

A disturbing influence of monetary conditions abroad was felt in this market as well as in European exchanges. The list of stocks which declined from 10 to 20 points embraced most of the important issues. Selling was not heavy, but traders were inclined to take the short side of the market and no effective support was given.

For the first time since last August a decrease in stocks of copper metal was reported. The February figures showing a shrinkage of nearly 900,000 pounds. Standard Oil stocks declined on the curb, being affected by much the same kind of rumors as were reported yesterday regarding American tobacco and the attitude of the new attorney general. Losses ran up to 100 points in one case.

Bonds were heavy with further decline in recent sales.
